As an experienced web developer, I possess a broad range of skills in developing websites, from landing pages to BPMS and CMS. I am proficient in utilizing programming languages such as PHP, JavaScript, Python, Java, SQL, MariaDB, MS SQL, JSON, HTML5/CSS3, JQuery, AngularJS, Laravel, React, and Bootstrap. I also have experience in utilizing various tools such as, git/github, npm, Keras, and OpenCV as well as in developing WordPress and WooCommerce websites and PWA. Additionally, I am a professional user of Windows, Linux, and MacOSX operating systems, and proficient in using software applications such as 3dsmax, Corona Renderer, Photoshop, CoralDraw, AutoCad, Figma, and Canva. Moreover, I have Autodesk Certifications to showcase my proficiency in the field.

WORK EXPERIENCE

Full stack developer at AARDO OÜ (Tallinn, <https://paynote.eu/>)

Working on multiple cryptocurrency exchange platforms. Fullstack development using HTML, CSS, WordPress, PHP, JavaScript, Python, and MS Access. Responsibilities include landing page code updates, frontend markup, implementing new database functionality, and integrating with cryptocurrency exchange APIs.
